Rubaiyat (Ru) Ruhin

Data Analyst | rubaiyatalam.ruhin@gmail.com | LinkedIn | GitHub | Adelaide, SA, Australia

Professional Summary

Data Analyst with 1+ year of industry experience and a Master of Data Science, skilled in SQL, Power BI, Excel and Python and in translating complex operational datasets into actionable business recommendations. Track record of finding a reminder change projected to keep **BDT 0.87M a year** in fees and cutting weekly reporting time by **74%**.

Skills

Programming & Query Languages: SQL (T-SQL), Python (pandas, NumPy), DAX, R
Databases: PostgreSQL, Microsoft SQL Server, MySQL
Data Visualisation: Power BI (Power Query, Data Modelling, Dashboards), Matplotlib, Seaborn
Data Tools & Platforms: Excel (Pivot Tables, Lookups), Google Sheets, Microsoft 365, Git and GitHub
Data Analysis Techniques: Data Cleaning & Validation, Exploratory Data Analysis, A/B Testing, Statistics
Domain Knowledge: Healthcare Operations, Retail Pricing & Discounting, Hospitality & F&B Operations
Professional Skills: Requirements Gathering, Stakeholder Communication, Cross-team Collaboration, Reporting

Professional Experience

Barista Mar 2024 – Present
CIBO Espresso *Adelaide, Australia*

- Managed inventory and stock ordering, and reconciled POS takings daily with **zero cash discrepancies** over 12+ months.
- Kept communication clear and calm with customers and teammates in a busy, multicultural team, and trained new staff as **team lead**.

Data Analyst May 2022 – Aug 2023
Fieldbooster Limited *Dhaka, Bangladesh*

- Identified a reminder change that cut no-shows by **23%** among the highest-risk patients, projected to keep **BDT 0.87M a year** in fees, by evaluating a six-week pilot as an A/B test in SQL and Power BI.
- Cut weekly reporting time by **74%** (244 to 62.5 minutes) by automating data preparation in PostgreSQL.
- Built and maintained **Power BI dashboards** with DAX measures and clinic, specialty and date filters, letting the operations team answer follow-up questions without an analyst.
- Gathered **client requirements** in product meetings and agreed feasible solutions with developers.

Treasurer (elected) Jan 2021 – Dec 2021
IEEE AESS, BRAC University Student Branch *Dhaka, Bangladesh*

- Ran DataCON 1.0, a flagship countrywide data analytics workshop for **200+ participants**.
- Secured event funding by analysing budget needs and preparing proposals for the university.

Projects

Discount Guardrails | *SQL Server, Python, Power BI*

- Built an end-to-end analysis of 9,994 order lines ($2.30M sales) in SQL Server to set the maximum discount each product group of a retailer should allow.
- Measured margin at 12 discount levels with CTEs, window functions and stored procedures, modelled 20–50% caps under customer-retention scenarios, and verified totals with 33 checks.
- Delivered a Power BI report showing discounts above 20% lost **$135K**, almost half of profit, and that a 20% cap adds **+$135K to +$219K**.

Slice & Co. Pizza Operations | *Power BI, Power Query, DAX*

- Analysed a pizza kitchen's 48,620 order lines ($817.9K revenue) to show its General Manager when revenue comes in and which pizzas earn it.
- Modelled the data in Power Query with 99 DAX measures, profiling demand by hour and weekday, basket size, and unusual days against a typical same weekday.
- Delivered a Power BI report showing **56%** of revenue in two rush windows and a **$13K-a-year** upsell.

Education

Master of Data Science 2024 – 2025
The University of Adelaide *Adelaide, Australia*

Bachelor of Science in Electrical and Electronics Engineering 2018 – 2022
BRAC University *Dhaka, Bangladesh*
